

# Innovation & Growth

Kevin Baughan

July 2015

Innovate UK

# Progress Update

**ACTION 1.4**    **Launch cross-sector collaboration calls** and require a business case that promotes value

*Location based services: £4.5m for 7 projects*

*- Big Data for Maritime LBS by Globavista*

*Environmental data: £4m 33 studies (20 satellite)*

*- CropForecast by Deimos Space*

**ACTION 4.10**    **Secure 20 new partnerships** in the next 5 years by running missions to "hot spots" in priority markets

*Reconnaissance mission in May to plan for missions in 2015 to California & Utah and then Houston*

**ACTION 5.3**    **Elevate the current Space Special Interest Group** to become a full Space Community in the new KTN

*Done. Dedicated staff of 4.*

# Our 5 Point Plan – Building on Excellence

## Launchpads in Harwell

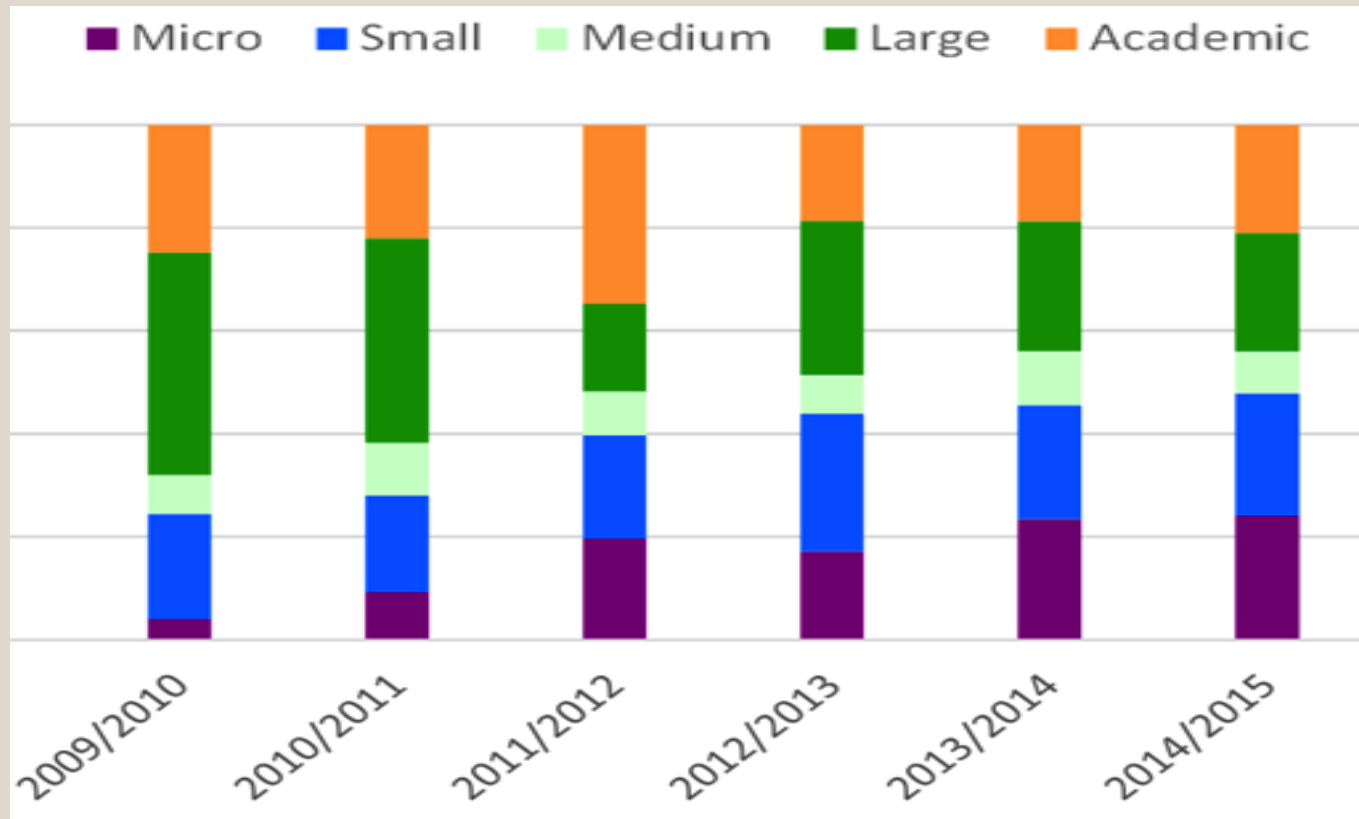

- *Two completed*
- *One currently in planning*

## Building on innovation excellence throughout the UK, investing locally in areas of strength

- *Engagements right across the UK*
- *Commercial applications in many markets*  
*Oil & Gas in Aberdeen, Autonomous Surface Vessels in Solent*
- *Clusters of “new space” companies*
- *Establishment of a UK Space Port*

# Our 5 Point Plan - The Transition to Mid Size

**Accelerating UK economic growth**, nurturing small high-growth potential firms in key market sectors, helping them to become high-growth mid-sized companies or divisions within corporates.
